PROFESSIONAL SUMMARY

Computer Engineering graduate with experience in Artificial Intelligence, Cloud Computing. Skilled in designing scalable applications, developing AI-powered solutions, building REST APIs, and deploying cloud-native systems. Strong foundation in problem-solving, data structures, and cross-functional collaboration with a passion for building impactful technology solutions.

EDUCATION

Bachelor of Engineering in Computer Engineering	Nov 2022 – Jul 2026
Lokmanya Tilak College of Engineering	
Higher Secondary Certificate (Class XII)	2021
Maharashtra State Board, 80.33%	
Secondary School Certificate (Class X)	2019
Maharashtra State Board, 74.20%	

SKILLS

Programming: Python, SQL

Artificial Intelligence: Machine Learning, Deep Learning, NLP, Computer Vision, Generative AI, LLMs, Prompt Engineering, AI Agents

Data & Analytics: Pandas, NumPy, Data Analysis, Data Visualization

Cloud & DevOps: AWS, Docker, Cloud Computing

Tools: Git, GitHub, Linux, VS Code, Jupyter Notebook

Professional Skills: Problem Solving, Communication, Team Collaboration, Leadership, Project Management

EXPERIENCE

AI Strategy & Business Intelligence Internship – IBM	2025
<i>Intern</i>	

- Explored AI strategy, business intelligence frameworks, and enterprise AI adoption.
- Studied AI agents, automation workflows, and data-driven decision-making approaches.

Cyber Smart AI Prime Internship – CISCO	2025
<i>Intern</i>	

- Gained practical exposure to cybersecurity fundamentals, networking concepts, and secure infrastructure.
- Learned security best practices and AI-assisted cyber defense approaches.

Google Developer Groups (LTCOE Campus)	Oct 2025 – May 2026
<i>Core Member</i>	

- Organized technical workshops, community initiatives, and developer-focused events.
- Collaborated with teams to execute technical programs and increase student engagement.

PROJECTS

Emotion-Aware Multimodal Video Translation

- Built multilingual AI video translation platform integrating speech recognition, machine translation, emotion detection, and lip synchronization.
- Developed an end-to-end pipeline preserving speaker identity, emotional context, and speech naturalness.

AI-Based Classroom Management System

- Developed a classroom management platform for assignment tracking, student management, and academic workflows.
- Implemented backend services and automated features to streamline administrative operations.

AegisCloud – AI Self-Healing Cloud Infrastructure

- Designed AI-driven cloud infrastructure capable of monitoring, detecting, and recovering from system failures.
- Built automated recovery workflows to improve reliability and reduce downtime.

CERTIFICATIONS

- **Data Analysis with Python – IBM**
 - Applied data cleaning, visualization, and analytical techniques using Python.
- **AI Agent Architect – IBM**
 - Designed intelligent AI agents, automation workflows, and decision-making systems.
- **Python Programming Training**
 - Strengthened programming fundamentals, algorithms, and problem-solving skills.
- **AWS Cloud Graduate Certification**
 - Learned cloud infrastructure, deployment, and scalable architecture fundamentals.
- **AWS Certified Cloud Practitioner – AWS**
 - Validated cloud computing, security, pricing, and AWS core services knowledge.

ACTIVITIES

Workshop Organizer – IIT Madras TechFest

- Managed workshops with 200+ participants and coordinated technical sessions.
